

Professional Summary

Dedicated Full Stack MERN Developer with hands-on experience building scalable, responsive, and user-centric web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in developing secure RESTful APIs, implementing JWT authentication, and managing complex application states with Redux. Passionate about creating clean, efficient, and high-performance solutions with modern UI/UX practices. Strong problem-solving abilities, attention to detail, and a continuous learning mindset with a focus on delivering impactful digital experiences and scalable software solutions.

Education

Computer Science

Jul 2018 - Mar 2022

Bachelor's
Calicut University, Kerala, India
GPA : 3

MERN Stack Development

Feb 2025 - Sep 2025

Internship Course
Luminar Technolab, Kerala, India
GPA : 4

Projects

Resume Builder

- Developed a full-stack resume builder application using the MERN stack, enabling users to create, edit, and manage professional resumes.
- Built a real-time resume preview system using React state management, allowing users to instantly visualize changes while editing.
- Integrated PDF generation functionality using Puppeteer to convert resume templates into downloadable, print-ready documents.
- Developed RESTful APIs with Node.js and Express for handling resume data, user authentication, and CRUD operations.
- Implemented JWT-based authentication system to secure user sessions and protect user-specific resume data.
- Enabled resume persistence and dashboard functionality, allowing users to save, update, and retrieve multiple resumes.
